In addition to Pupil Premium we receive additional SEN funding from the Local Authority to help meet the needs of a small group of children					
Sports premium for before & after school sports clubs	<ul style="list-style-type: none"> • Access to enrichment opportunities, which support a healthy lifestyle. • Clubs help children to feel more confident about taking up opportunities to represent school at sporting events 	<ul style="list-style-type: none"> • Covid restrictions mean this has been limited to virtual competitions and individual events • We have encouraged all children to participate in these throughout lockdown and now back in school 			

- An individual Pupil Provision Plan is drawn up for each child. This ensures school identifies and reviews each child's individual needs and provides a plan to help remove any barriers to learning through support and intervention programmes, or providing challenge and enrichment opportunities. This strategy is based on best practice and current research and is reviewed annually by staff and governors.
- Covid restrictions have impacted on learning, we have worked hard to assess children's gaps in learning and provide support to meet their needs- both academic or pastoral
- Covid restrictions mean pupil premium allocated towards trips and music lessons has not been totally spent. Increased costs, to meet children's needs during the ongoing pandemic, include resources and emotional wellbeing support in relation to the pandemic and returning to school.
- In November 2017 OFSTED found "You make good use of a range of networks and links with other schools to provide effective training and professional development for the staff. This has been important in enabling you to improve, for example, the ways in which the teachers assess the pupils' progress. As a result, the teachers are able to plan activities increasingly for the pupils to meet precisely identified learning needs."
