

Congerstone Primary School

Curriculum

We pride ourselves on providing a rich and varied curriculum,
Which is built upon our curriculum aims to:

- Inspire each other to achieve success.
- Challenge every child to 'be the best they can be' and achieve their personal best across the whole curriculum.
- Demonstrate high expectations and encourage positive attitudes towards learning.
- Develop curiosity and an enquiry view of the world we live in and how we can shape the world to come.
- Enable every child to develop effective learning strategies which promote an independent and responsible attitude towards lifelong learning.
- Ensure equality of access and opportunity.
- Stimulate children's learning through extra-curricular activities and curriculum enrichment.
- Work in partnership with parents, the church and the local community in supporting children's learning.

Our curriculum is based on the National Curriculum and carefully planned each year to ensure children receive a broad, balanced and inspiring curriculum. To do this we;

- Use an enquiry approach to planning units of work e.g. *How did World War I & World War II impact everyday lives?*
- Prepare knowledge organisers to identify prior knowledge and allow for reflection at the end of units
- Include trips and visiting speakers e.g. Young Shakespeare Company
- Plan for theme weeks e.g. Art Week, Science Week, World of Work Week, Ant-Bullying and Eco Week

World Book Day

African Drumming Workshop

End of year Production Dragon Days
